SIR,

I have to acknowledge the receipt of your letter of the 31st ultimo, forwarding, for submission to His Excellency the Lord Lieutenant, the Report on the Trade in Imports and Exports at Irish Ports for the year 1916.

I am,

SIR,

REPORT ON THE TRADE IN IMPORTS AND EXPORTS AT IRISH PORTS DURING THE YEAR 1916.

TO THE SECRETARY OF THE DEPARTMENT OF AGRICULTURE AND
TECHNICAL INSTRUCTION FOR IRELAND.

SIR,

I have the honour to submit the Report on the Trade in Imports and Exports at Irish Ports during the year ended 31st December, 1916.

The publication of this Report has been unavoidably delayed in consequence of the very large increase in the statistical work of the Department caused by the war and the depletion of its trained statistical staff caused by enlistment.

The inadequacy of the present system of returns upon which these Reports are based and the importance of this consideration has been fully dealt with in previous Reports. The inadequacy has been all the more marked since the outbreak of war.

In the tables and figures herewith submitted, as explained in previous Reports, Irish imports and exports mean all goods imported or exported by Ireland, whether from or to Great Britain, the Colonies, or foreign countries—the terms including not only the colonial and foreign trade, but also the Cross-Channel trade between Great Britain and Ireland.

The following table* shows the total estimated value of all imports into and all exports from Ireland during each of the five years 1912 to 1916 :—

| Year. | Imports. | Exports. | Total. |
|---------|-------------|-------------|-------------|
| | £ | £ | £ |
| 1912 .. | 73,952,725 | 67,107,904 | 141,120,629 |
| 1913 .. | 74,467,283 | 73,877,389 | 148,344,672 |
| 1914 .. | 73,994,732 | 77,311,052 | 151,305,784 |
| 1915 .. | 87,950,316 | 84,463,408 | 172,413,724 |
| 1916 .. | 105,205,416 | 107,171,017 | 212,376,433 |

The money value of the trade in 1916 greatly exceeded that for 1915, but the increase is more than accounted for by the rise in prices. Had the average prices in 1916 been the same as in 1915, the value of the imports instead of showing an increase of £17,255,100 or 19·6 per cent. would have decreased by £2,650,180 or 3·0 per cent., the value of the exports instead of increasing by £22,707,609, or 26·9 per cent., would have increased by only £2,138,374 or 2·5 per cent., and the value of the total trade instead

* Goods imported and afterwards re-exported are included in the figures for imports and exports; it is impossible to state with accuracy the value of such re-exports, but it is estimated that in 1916 they amounted in value to £3,200,000. The re-imports are very small. In the case of all dutiable commodities the values have been estimated exclusive of duty.

of increasing by £39,962,709 or 23·2 per cent., would have shown a decrease of £511,806 or 0·3 per cent.

The increase in the value of trade is a very unsound index to the increase in the volume of trade. The changes in the latter may be seen from the following table, which shows the total value of the imports and the exports for each of the years 1904 to 1916 on the assumption that prices were the same in each year as in 1904.

| Year. | Imports. | | Exports. | |
|----------|---|---|---|---|
| | Values as estimated at the prices of each year. | Values as calculated at prices of 1904. | Values as estimated at the prices of each year. | Values as calculated at prices of 1904. |

| 1909 ... | 65,155 | 59,486 | 60,929 | 54,762 |
| 1910 ... | 66,431 | 59,624 | 65,896 | 56,968 |
| 1911 ... | 67,610 | 60,322 | 65,071 | 56,370 |

| 1916 ... | 105,205 | 57,558 | 107,171 | 58,858 |

In order to obtain a more definite but still a broad idea of the trade, the imports and exports are classified * into (1) Farm produce, food and drink stuffs; (2) Raw materials; (3) Manufactured goods. The following table shows the values of the imports into and the exports from Ireland of each of these groups:—

* These classes are not mutually exclusive, but the division is simple, well known, and of practical interest.

I.—FARM PRODUCE, FOOD AND DRINK STUFFS.

The first line of the above table brings out the extraordinary fact that Ireland, an agricultural country, is largely dependent on other countries for her farm produce, food and drink stuffs; the value of her imports of these commodities amounted in 1916 to 37 per cent. of the value of her total imports.

The exports of farm produce, food and drink stuffs from Ireland are of course very large, their value in 1916 accounting for 58 per cent. of the value of the total exports; practically all go to Great Britain and are consumed there. An idea of the importance of this trade to Great Britain will be obtained from the following table, which, in addition to the estimated values of the Irish exports, shows the values of the imports into the United Kingdom of this group from the principal Foreign Countries and British Possessions of supply:—

FARM PRODUCE, FOOD AND DRINK STUFFS, INCLUDING TOBACCO.

When considering the above table it should be remembered that the exports from Ireland are valued free on board ship at the Irish ports and do not include insurance or freight, whereas the cost of insurance and freight are included in the values of exports shown for the other countries.

The above figures contrast the total exports from Ireland with the total imports of farm produce, food and drink stuffs from the principal countries of supply into the United Kingdom (not into Great Britain). Official figures are not available, but fairly accurate estimates can be made, which would give a direct comparison between Ireland and other

* The figures of exports to the United Kingdom, as shown in this table, have been extracted from the Annual Statement of the Trade of the United Kingdom, 1916, Vol. II. (Cd. 8714—1917).

countries as suppliers to Great Britain of this group of commodities. To make the comparison exact, the figures for Ireland should be reduced by the values of the Irish produce consumed abroad, and the figures for other countries should be reduced by the values of the goods consumed in Ireland which are included in the totals for the United Kingdom. The deductions would be comparatively small, and the figures shown in the last table, and in the above paragraphs indicate with sufficient accuracy the importance of the part played by Ireland as a supplier of food stuffs to Great Britain.

Attention is directed to the tables in Appendix I. of this Report, which show for the year 1916 the quantities and values of each of the chief articles of agricultural produce imported into the United Kingdom from Foreign Countries and British Possessions and the corresponding exports from Ireland. The following are some of the more important facts disclosed by the Appendix.

The value of *Cattle and beef* exported from Ireland to Great Britain in 1916 far exceeded the value imported from any other country. The Irish export amounted to a value of £20,580,000, the next largest import was from Argentina, valued at £12,785,000. The import from the United States of America, valued at £3,520,000, came next in order of magnitude.

The Irish export of *Sheep and mutton*, valued in 1916 at £1,743,000, was the third greatest, being exceeded by the imports from New Zealand, £8,416,000, and Argentina, £2,886,000.

As regards the total value of *Bacon, hams, pork, and live pigs*, Ireland came second on the list with a value amounting to £9,092,000, as compared with £24,550,000 from the United States of America, and £9,088,000 from Denmark. The imports from Canada came fourth with a value of £7,708,000.

The export of *Poultry* from Ireland was much greater than that from any other country to the United Kingdom, Ireland exporting to Great Britain poultry to the value of £1,749,000, while the largest value of imports from other countries to the United Kingdom was from the United States, £262,000.

The Irish export of *Butter*, value £6,163,000, was the second largest in quantity and value; the export from Denmark into the United Kingdom being first, value £10,378,000, and that from New Zealand third, value £2,728,000.

The Irish export of *Eggs* far exceeded, both as regards quantity and value, the imports from any other country, amounting to 3,254,000 gt. hunds., valued at £6,328,000; the imports into the United Kingdom from Egypt being the next largest in quantity, amounting to 1,890,000 gt. hunds., valued at £975,000. The imports from Denmark were 1,392,000 gt. hunds., valued at £1,303,000.

The Irish export of *Potatoes*, which amounted to 238,000 tons, valued at £1,248,000, was the largest import of potatoes into Great Britain. The quantity imported from the Channel Islands though amounting to only 47,000 tons, was valued at £917,000, as their trade is chiefly in early potatoes.

As regards *Oats*, the export from Ireland (2,046,000 cwt.) was third, the United States (5,102,000 cwt.) and Argentina (4,446,000 cwt.), being the largest exporters to the United Kingdom.

(A). LIVE STOCK AND ANIMAL PRODUCTS.

This is the principal sub-division of the group of farm produce, food and drink stuffs. The imports into Ireland of *Live stock* are comparatively small amounting in value in 1916 to £517,555. Details of this trade will be found on page 4 of the tables. The exports from Ireland of live stock are exceedingly large as will be seen from the following table:—

The export of horses in 1916 appears from the above table to have been very small, but it should be remembered that *Army horses are excluded from these records of Irish trade*. The exports of Cattle in 1916 were lower than in 1913 or 1914, but at the same time exceeded the normal; the heavy shipments in 1913 were due to the fact that large numbers had, on account of the outbreak of Foot and Mouth Disease in Ireland, to be kept in the country in the latter half of 1912. The large exports in 1914 were caused by the rise in prices immediately after the outbreak of war, which induced Irish cattle owners to ship exceedingly large numbers of cattle in the last four months of 1914.

The imports of *Meat* into Ireland are very considerable as will be seen from the following table :—

This table shows that while there was a large increase in imports of bacon and hams in 1915 and 1916 there was a corresponding decrease in the imports of other meats.

The exports of meat from Ireland in each of the years 1913 to 1916 inclusive were as shown in the following table :—

(b) It is found that under this heading quantities of bacon and hams are exported.

According to these figures nearly 90 per cent of the total value of dead meat exported consists of bacon and hams. The export of bacon and hams in 1916 was the highest on record with the exception of the year 1912. It is worthy of note that Ireland imports bacon and hams valued at £4,007,226, while at the same time she exports her own produce to the value of £6,659,547.

The following table shows the total quantities and estimated values of *Butter* and *Eggs* exported from Ireland during each of the five years, 1912 to 1916, inclusive :—

| Year. | BUTTER. | | EGGS. | |
|---------|-----------|-----------|------------|-----------|
| | Quantity. | Value. | Quantity. | Value. |
| | Cwts. | £ | Gt. Hunds. | £ |
| 1912 .. | 778,778 | 4,159,972 | 6,313,525 | 2,026,582 |
| 1913 .. | 725,368 | 3,735,645 | 6,398,235 | 3,019,167 |
| 1914 .. | 855,608 | 4,641,673 | 6,824,012 | 3,383,870 |
| 1915 .. | 838,089 | 5,751,385 | 7,577,763 | 4,799,250 |
| 1916 .. | 764,456 | 6,163,427 | 8,254,339 | 6,328,326 |

These figures do not include consignments sent by parcels post, but these form a very small part of the total export.

It will be noticed that the quantity of butter exported in 1916 was less than the export in 1914 and 1915, but greater than the quantity exported in 1913. The imports of butter are comparatively small, they decreased from 73,935 cwts. in 1914 to 60,048 cwts. in 1915 and to 42,201 cwts. in 1916. The imports of eggs are comparatively trifling.

Ireland has always been the chief supplier of *Poultry* to Great Britain, and in 1916, notwithstanding a decrease in the Poultry in Ireland, the exports were the highest on record with the exception of the year 1910. The exports in 1916 amounted to 325,936 cwts., valued at £1,749,190.

Attention is directed to the diagrams (see page xx), which show for the year 1916 for eggs and butter respectively (1) the monthly exports from Ireland, (2) the monthly imports into the United Kingdom from abroad, and (3) the monthly average price at Irish markets. These diagrams show that as Irish exports increased to their seasonal maximum, the imports from abroad into the United Kingdom were allowed to drop to a minimum, indicating the great importance of Irish supplies.

There was an increase in the quantity of *Fish* exported from Ireland in 1916, but a substantial decrease in imports.

(B). CEREALS—GRAIN, FLOUR, FEEDING STUFFS.

The total quantities and estimated values of the imports of *Wheat* and *Wheat Flour*, which are the principal imports amongst the cereals for human consumption, in each of the years 1912 to 1916 are shown in the following table:—

| Year. | WHEAT IMPORTS. | | WHEAT FLOUR IMPORTS. | |
|---------|----------------|-----------|----------------------|-----------|
| | Quantity. | Value. | Quantity. | Value. |
| | Cwts. | £ | Cwts. | £ |

| 1916 .. | 7,676,057 | 5,093,076 | 4,830,238 | 4,166,080 |

In the Agricultural Statistics of Ireland, the amount of Irish-grown wheat in 1916 was estimated at 1,514,482 cwts., and if it is assumed that one hundred tons of wheat produced seventy-two tons of flour, the total quantity of wheat represented by imports of wheat and flour and by home-grown wheat amounted to 15,899,201 cwts. From this quantity has to be deducted an export of wheat and wheat flour, or its equivalent in wheat, amounting to 146,847 cwts. leaving thus a residue for consumption in Ireland of 15,752,354 cwts. of wheat; this would be the produce in an average year of 792,000 statute acres in Ireland.

The imports into Ireland of *Barley* and *Malt* are very considerable as will be seen from the following table :—

| YEAR. | BARLEY. | | MALT. | |
|---------|-----------|-----------|-----------|---------|
| | Quantity. | Value. | Quantity. | Value. |
| | Cwts. | £ | Cwts. | £ |
| 1912 .. | 1,162,584 | 456,610 | 878,642 | 621,995 |

| 1916 .. | 1,454,520 | 1,090,890 | 498,023 | 581,027 |

In 1916 the imports of Barley and Malt taken together were greater than in 1915, but less than 1912, 1913, and 1914.

Among the feeding stuffs for animals the chief import is *Maize*, a very great quantity of which was annually imported into Ireland, but even in 1916 the import showed a substantial decrease. The following were the imports in each of the five years 1912 to 1916 inclusive :—

| Year. | Quantity. | Value. |
|-------------|------------|-----------|
| | Cwts. | £ |
| 1912 | 13,582,134 | 4,244,417 |
| 1913 | 14,880,194 | 4,154,054 |
| 1914 | 13,128,145 | 4,102,545 |
| 1915 | 13,719,106 | 5,487,642 |
| 1916 | 10,196,333 | 6,330,223 |

Together with the above import of maize, the imports of bran, pollard, and the various classes of cattle meals and cakes, brought the total value of *Animal feeding stuffs* imported in 1916 to a sum estimated at £8,467,209 as compared with £7,533,207 in 1915.

Large quantities of *Oats* and *Potatoes* are exported each year from Ireland as will be seen from the following table :—

| YEAR. | OATS. | | POTATOES. | |
|---------|-----------|-----------|-----------|-----------|
| | Quantity. | Value. | Quantity. | Value. |
| | Cwts. | £ | Tons. | £ |
| 1912 .. | 1,180,033 | 427,762 | 171,131 | 513,393 |
| 1913 .. | 1,475,509 | 485,688 | 124,020 | 472,826 |
| 1914 .. | 1,540,569 | 590,551 | 187,922 | 634,237 |
| 1915 .. | 1,808,935 | 918,893 | 191,444 | 765,776 |
| 1916 .. | 2,045,623 | 1,227,374 | 237,774 | 1,287,943 |

The quantities of both *Oats* and *Potatoes* shipped from Ireland in 1916 were the highest on record.

(C). OTHER FOOD STUFFS, DRINK AND TOBACCO.

Amongst the "Other Food Stuffs" imported into Ireland the most important are *Sugar* and *Tea*. The following table shows the total quantities and values of these imports in each of the years 1912 to 1916 inclusive :—

| YEAR. | SUGAR. | | TEA. | |
|---------|-----------|-----------|------------|-----------|
| | Quantity. | Value. | Quantity. | Value. |
| | cwts. | £ | lbs | £ |
| 1912 .. | 2,785,793 | 2,293,279 | 33,874,960 | 1,235,025 |
| 1913 .. | 2,836,928 | 1,903,106 | 32,063,344 | 1,224,875 |
| 1914 .. | 2,677,266 | 2,152,968 | 39,611,040 | 1,518,423 |
| 1915 .. | 2,684,745 | 3,378,304 | 38,535,840 | 1,758,198 |
| 1916 .. | 2,214,567 | 3,358,760 | 35,100,800 | 1,645,350 |

The values of both *Sugar* and *Tea* as well as of all other dutiable commodities have been estimated exclusive of duty. It will be seen from these figures that there was a large decrease in the amount of *Sugar* imported in 1916 compared with previous years. As regards *Tea*, the quantity imported in 1916 was considerably less than in 1915 or 1914, but greater than in 1912 or 1913.

There was a substantial decrease in the quantity of home-made spirits exported from Ireland in 1916, compared with any of the previous four years; the exports of *Porter* were greater than in 1912, 1913, 1914, or 1915. The quantities of *Home-made Spirits*

imported into Ireland are small; they amounted in 1916 to a value of £370,520. The quantities of potable home-made spirits exported from Ireland were 5,829,340 pf. galls. in 1912, 6,208,157 pf. galls. in 1913, 6,030,313 pf. galls. in 1914, 5,707,705 pf. galls. in 1915, and 3,943,918 pf. galls. in 1916. The values were £1,060,136 in 1912, £2,008,500 in 1913, £1,930,377 in 1914, £1,714,989 in 1915, and £4,272,578 in 1916. The exports of *Porter* from Ireland were 794,447 hhds. in 1912, 859,056 hhds. in 1913, 889,696 hhds. in 1914, 887,591 hhds. in 1915, and 893,777 hhds. in 1916. The values were estimated at £2,098,664 in 1912, £2,269,340 in 1913, £2,446,664 in 1914, £2,500,048 in 1915, and £3,053,738 in 1916. The value of Alc, Beer, and Porter imported in 1916 was £551,844 as compared with £434,466 in 1915.

The quantities of *Unmanufactured Tobacco* imported were 15,884,015 lbs. in 1912, 9,234,752 lbs. in 1913, 12,980,192 lbs. in 1914, 19,136,878 lbs. in 1915, and 12,263,370 lbs. in 1916. The exports of *Unmanufactured Tobacco* were 705,414 lbs. in 1912, 772,488 lbs. in 1913, 811,633 lbs. in 1914, 1,278,990 lbs. in 1915, and 1,461,699 lbs. in 1916. The quantities of *Manufactured Tobacco* imported were returned as 4,031,496 lbs. in 1912, 4,687,116 lbs. in 1913, 5,346,348 lbs. in 1914, 4,649,064 lbs. in 1915, and 4,759,944 lbs. in 1916. The exports of *Manufactured Tobacco* were 8,208,810 lbs. in 1912, 8,098,378 lbs. in 1913, 8,295,537 lbs. in 1914, 8,922,810 lbs. in 1915, and 8,739,248 lbs. in 1916. The figures shown for *Unmanufactured Tobacco* imported and exported have been kindly furnished by the Customs and Excise Department, the figures for *Manufactured Tobacco* are those returned by Portal Authorities, Railway and Shipping Companies, etc., who furnish the Returns to this Department.

II.—RAW MATERIALS.

For the purposes of the broad classification adopted in the summary tables, raw materials include coal, coke, rough and sawn timber, boards and deals, stones, slates, sand, clay, metal ores and other mineral substances, hides, skins, horns and hoofs, wool, bristles, feathers, flax, raw cotton, hemp, jute, tow, waste, seeds, plants and bulbs, ice, &c. The total value of raw materials imported into Ireland in 1916 was estimated at £17,793,894, as compared with £14,000,440 in 1915, showing an increase of £3,793,454. It should be noted, however, that this increase was altogether due to higher average values; for, had the average prices of Raw Materials in 1916 been the same as in 1915, instead of an increase of £3,793,454 there would have been a decrease of £116,292. The imports consist mainly of coal, wood, flax, and other raw materials of the textile industries. There is also a large import of raw cotton.

The exports of raw materials in 1916 were estimated at a value

of £4,588,332, as compared with £3,856,370 in 1915. These consist mainly of animal produce, such as hides, skins, wool, fats, &c., and, to a lesser extent, of seeds, timber, and other vegetable produce. The item raw cotton, which has been referred to above, while it must be accounted for in a record of Irish trade, is neither an import for home consumption nor an export of domestic produce, neither is it worked up in any way in Ireland, but is merely transhipped.

The quantities and estimated values of the chief imports of raw materials in each of the years 1913 to 1916 were as follows :—

|-------------------|-------------|-----------|-----------|-----------|-------------|-------------|-------------|-------------|

The quantities and values of the chief exports in the same years were :—

EXPORTS.

|-------------------|-------------|------------|------------|------------|-----------|-----------|-----------|-----------|
| | 1913. | 1914. | 1915. | 1916. | 1913. | 1914. | 1915. | 1916. |

In connection with the above figures it will be noticed that coal accounted for nearly half of the total value of Raw Materials imported. The value of the import of Coal was much higher than in any previous year

It should also be stated that the imports of *Wood and Timber* consist mainly of sawn timber, boards and deals, whereas 90 per cent. of the exported timber is shipped out of the country in the rough or round state—an uneconomic condition of affairs. The large export of *Hides and Skins* amounting to £883,376 should be compared with the imports of leather and leather goods, boots, shoes, saddlery, etc. which approximate a value of £3,000,000. The quantity of *Wool* exported in 1916 amounted to 10,322,928 lbs valued at £709,761 compared with 10,175,536 lbs., in 1915 valued at £741,966. While exporting this large quantity of raw material Ireland is importing large quantities of the finished woollen goods, and it is not simply in one branch but in several—in wood, hides and skins, wool, as well as in various minor exports such as feathers, kelp, and most of all in her store cattle—that Ireland is exporting the raw materials of industry.

The recent losses of available shipping tonnage for imports and exports emphasises this point concerning the export of raw materials for the purpose of manufacture and which are subsequently imported into Ireland in the manufactured state. The leather, woollen and wood manufacturing industries are especially concerned.

III. MANUFACTURED ARTICLES.

The third division of Irish imports and exports is that of manufactured goods. The value of the imports in 1916 was estimated at £48,360,000, or 46 per cent. of the total value of imports. The export of manufactured goods was estimated at £40,000,000, or about 38 per cent. of the value of the total export. The value of the imports increased by £7,850,000, and the exports by £7,948,000 as compared with 1915. Increases in the values of the imports of *Textile Piece Goods, Apparel, Drapery, &c.*, amounted roughly to £4,000,000.

The values given in these Reports are estimates based on the actual quantities imported or exported, and accordingly the values of goods such as agricultural products and raw materials, which are usually sold by weight, are bulky and are easily defined, will be found to be fairly accurate; the less bulky and more extensive class of manufactured goods are naturally more vaguely described on the returns, and accordingly their estimated values are less reliable than the values of agricultural products and raw materials. As pointed out in previous Reports, the values of manufactured goods cannot be satisfactorily determined from the information given in the present system of Returns.

(A). TEXTILES.

The first and largest group of manufactured goods is that of the textiles. The combined value of imports and exports in 1916 of manufactured textile goods amounted to £53,221,941 as compared with £43,797,441 in 1915, a sum well over one-half of the

total value of all manufactured goods imported and exported. Distinguishing yarns, thread, rope, cordage, &c., from piece goods and made-up goods, the value of the imports of the former was in 1916 estimated at £3,578,216 as compared with £2,287,401 in 1915. The imports of piece goods, ready-made goods, drapery, and apparel in 1916 amounted to £22,129,922 as compared with £18,004,447 in 1915; the exports to £23,290,671 as compared with £20,295,415 in 1915. A considerable quantity of cotton goods is imported for purposes of further manufacture, and is afterwards re-exported. The outstanding feature in the case of exports, is the fact that almost three-fourths of the textile piece goods exported are returned as "linens," but this term in the returns of the portal authorities has a wide significance, and probably includes cotton, union, and other textile goods which are consigned as "linens." The estimated value of exports of "linen" goods amounted to £16,248,120 as compared with £14,904,226 in 1915. The returns show an increase in the value of the exports of woollen goods from £1,150,846 in 1915, to £1,442,748 in 1916, but the exports are still considerably less than the imports.

(B) METALS AND METAL MANUFACTURES.

The group of metals and metal articles, machinery, ships, &c., is a very wide class, and in gross annual value is next in importance to the textiles. It is estimated that in 1916 the total value of the imports of metals and metal manufactures amounted to £9,552,130, while the exports were estimated at £8,658,819. Among the imports £1,930,000 represented steel, bar and wrought iron, and plates and sheets; £2,090,000 represented machinery (chiefly agricultural and textile); and £490,000 represented imports of cycles and motor cars. As regards exports, they consisted chiefly of steam vessels valued at £6,322,543, and machinery valued at £1,152,604. Thus there are large individual exports in this class, but as a whole the trade in hardware and metal goods and manufactures stands in contrast to the textile trade. For whereas the value of the textile exports appears even greater than that of the imports there is a very large surplus of metals and metal manufactures imported over what is exported.

(C). OTHER GROUPS OF MANUFACTURED GOODS.

Leather and Leather Goods.—The imports of this group amounted to £3,841,158; the exports to £720,149. Included in the imports were leather valued at £374,206, boots and shoes valued at £1,982,231, and india rubber goods valued at £804,529.

Wooden Manufactures.—The imports were valued at £1,077,536, and the exports at £519,973. The imports included furniture valued at £454,634.

Paper, Stationery, etc.—The imports of this group amounted to £1,441,180, and the exports to £458,004. The value of paper imported amounted to £701,548.

Earthenware, China, Glass, etc.—The total value of these imports amounted to £1,118,343. The exports were small, valued at £52,033. Glass, glassware, and bottles imported amounted to £622,325.

Chandlery.—The value of the imports of chandlery, including many classes of goods, such as oils, paints, soap, candles, etc., amounted to £3,457,243; the exports to £796,127.

Chemicals and Fertilisers.—The total value of the imports of chemicals, fertilisers, and dyestuffs amounted to £1,917,048; the exports to £545,231. The value of fertilisers imported was £1,044,468; the exports amounted to £142,883.

The above analysis indicates briefly the extent and character of Irish trade. With regard to the question of the source or "country of origin" of the imports and the final destination of the exports, as stated in previous Reports, the existing returns furnish little information. The trade which passes directly between Ireland and colonial and foreign countries is known, and the more important details as regards this trade at the chief ports in Ireland are presented annually by the Customs and Excise Department in their Statement of the Trade of the United Kingdom. The direct imports of foreign and colonial goods into Ireland during 1916 amounted to a value of £19,845,213, whereas the direct exports amounted to only £418,267. But as regards the indirect colonial and foreign trade of Ireland which passes to and from the Irish ports *via* Great Britain, there are at present no means of distinguishing this from the colonial and foreign trade of Great Britain. Consequently the total trade of Ireland with countries outside of Great Britain cannot at present be ascertained.

The imports into Ireland per head of population according to the present returns, amount to £24 5s. 2d., and the exports per head to £24 14s. 0d.; or if the estimated value of re-exports is excluded, the imports amount to a value of £23 10s. 3d. per head of population, and the exports to £23 19s. 3d. per head.

It is of interest to compare the value of the import and export trade per head of population of other countries with that of Ireland, and the following table shows the values for the year 1913, the latest year for which figures for all the countries are available:—

As has been pointed out in former reports, these figures indicate the wide difference which there is in the extent of foreign trade of different countries as measured per head of population. In some States, especially those of wide area and varied climatic conditions, the extent of foreign trade in proportion to the total production of the country is small. In all such cases increase or decrease in imports or exports is a very subordinate factor in the industrial progress of the country, and the growth of wealth depends chiefly on internal development and internal trade, and not on the exchange of commodities with other nations. The larger the foreign or external trade of a country is in proportion to its internal trade, the greater is the importance of having as full and accurate as possible a record of this external or foreign trade. It is accordingly of the greatest importance to have as full and reliable a record as possible of the external trade of Ireland but as has been repeatedly pointed out in previous Reports, the present records of this trade are far from being as accurate and as detailed as is desirable.

In conclusion, I desire to acknowledge the assistance given by the port and harbour authorities of Ireland, the railway and shipping companies, and by many individual importers and exporters in furnishing information for this Report. I am also specially

indebted to the Principal of the Statistical Office of the Customs and Excise Department, and to the Comptroller-General of the Commercial, Labour, and Statistical Department of the Board of Trade, for the information which they have kindly afforded.

I am, Sir,

Your obedient Servant,

JOHN HOOPER,

Superintendent of Statistics and Intelligence Branch.

APPENDIX II.

The following tables (pp. 102-113) extracted from publications issued by the Bureau of Statistics, Washington, show the imports and exports into and from Ireland from and into the United States during the twelve months ended 30th June, 1916. The tables, however, do not cover the whole trade between Ireland and the United States. Goods manufactured or produced in Ireland, sold to firms in England, and by them exported to the United States, are, as a rule at least, accredited in the reports of the Bureau to England and not to Ireland.
